

# **Chiren Light Therapy**

With:

Denise Abda, BSMT (ASCP), HC, IMA

## **How the Chiren Instrument and Light Therapy Work:**

The Chiren Therapy is completely non-invasive, comfortable and safe. It works by eliminating the causes of a disorder and correcting disturbances on the level of light and information.

This restores the communication that runs all systems in your body, at last enabling it to carry out its own healing process. At the end of the therapy, all symptoms can disappear on their own, and the body's innate ability to recover from illnesses can be restored.

It is important to understand that it is always your own body that does the healing once the disturbing causes have been removed.
